Customized Standard Plastics & Paper-Based Products

GO-2 PRODUCTS, INC.

where colors collide

with customized plastics and paper-based products

Innovative solutions to build your business

- On Demand Messaging – many products are customizable with your personalized message
- Thermal & Photochromic Colors – reversible color changes activated in cold or warm temperatures or sunlight
- Go-Bio™ – landfill degradable products to meet your sustainability needs
- Unique Profiles & Shapes – manufacturing capabilities to turn straws into shapes you have never seen
- Food Safety Solutions – unique temperature activated color change products indicate when products reach food code temperature or when dishes have reached sanitation temperature
- Performance Materials – our R&D team is always working to find the next great development
